INDEX

ABEL, A. R., R. W. BACKUS, H. BOURQUIN and R. W. GERARD. Tryptophan and thyroid function, 287.

Activity, daily, of albino rat, 485.

—— in male castrates with ovarian transplants, 581.

Adrenal function, beginning of, in embryo chick, 670.

Adrenalin, action of, on respiration, 661.

——, effect of ether on pressor response to, 254.

ADOLPH, E. F. The passage of water through the skin of the frog, and the relation between diffusion and permeability, 85.

Anaphylaxis test for absorption of undigested protein, 539.

Anhydremia, cold, and edema, mechanism of, 665.

——, ——, due to loss of fluid from blood stream, 315.

——, ——, fate of fluid leaving blood in, 321.

Anti-rachitic action of excreta from irradiated rats, 341.

BACKUS, R. W. See ABEL, BACKUS, BOURQUIN and GERARD, 287.

BARBOUR, H. G. and W. F. HAMILTON. Heat regulation and water exchange: VII. Evidence that cold anhydremia is due to loss of fluid from the blood stream, 315.

IX. The mechanism of cold anhydremia and edema, 665.

——. See HAMILTON and BARBOUR, 321.

BARNARD, L. See OLIVER and BARNARD, 401.

Baths, hot-air, physiological effects of, 429.

BENEDICT, C. G., F. G. BENEDICT and E. F. DUBOIS. Some physiological effects of hot-air baths, 429.

BENEDICT, F. G. See BENEDICT, BENEDICT and DUBOIS, 429.

——. See MACLEOD, CROFTS and BENEDICT, 449.

BIESTER, A., M. W. WOOD and C. S. WAHLIN. Carbohydrate studies. I. The relative sweetness of pure sugars, 387.

——. See WILLAMAN, WAHLIN and BIESTER, 397.

Blindness, night, and malnutrition, relation between, 63.

Blood, action of insulin on, 470.

—— alkali, effect of low blood pressure and ether on, 264.

—— cells, red, electrokinetic properties of, 401.

—— gases from arm and hand veins, 127.

—— lipase, 1.

——, peripheral, gases of, local temperature and, 146.

—— pressure and ether, effect of, on blood alkali, 264.

—— —— during sleep, changes in, 551.

BOURQUIN, H. See ABEL, BACKUS, BOURQUIN and GERARD, 287.

CARBOHYDRATE studies, 387, 397.

CARLSON, A. J. See JACOBSON and CARLSON, 324.

CASE, M. A. See LUTZ and CASE, 670.

CASSIDY, G. J., S. DWORKIN and W. H. FINNEY. The rate of action of insulin in artificially cooled mammals, 413.

——, ——, ——. Insulin and the mechanism of hibernation, 417.

Castrates, male, with ovarian transplants, activity in, 581.

Cells, interstitial, effect of pressure on, 547.

CHANG, H. C. Relation of tryptophan to thyroid activity in the white rat, 275.

Circulation and its measurement, 193.

Circulatory responses to static and dynamic exercise, 636.

Clark, J. H. Studies on radiated proteins. I. Coagulation of egg albumin by ultraviolet light and heat, 649.

Coagulation of egg albumin by ultraviolet light and heat, 649.

Cole, E. C. The endurance of pressure by nerve cells and by interstitial cells, 547.

Cowgill, G. R., H. J. Deuel, Jr. and A. H. Smith. Studies in the physiology of vitamins. III. Quantitative aspects of the relation between vitamin B and appetite in the dog, 106.

Crofts, E. E. See MacLeod, Crofts and Benedict, 449.

Cyanosis, unrelated to oxygen unsaturation, produced by increased peripheral venous pressure, 173.

Dawson, A. B. and A. C. Ivy. Contributions to the physiology of gastric secretion. VII. The elimination of dyes by the gastric mucosa, 304.

Deuel, H. J., Jr. See Cowgill, Deuel and Smith, 106.

Diffusion and permeability, relation between, 85.

DuBois, E. F. See Benedict, Benedict and DuBois, 429.

Dworkin, S. See Cassidy, Dworkin and Finney, 413, 417.

Dyes, elimination of, by gastric mucosa, 304.

Edema, cold anhydremia and, mechanism of, 665.

Electrical response to illumination of eye, 600.

Electrokinetic properties of red blood cells, 401.

Ellis, M. M. and E. B. Newton. Changes in the physiological action of insulin induced by exposures to ultraviolet light, 530.

Embryo chick, beginning of adrenal function in, 670.

Emery, F. E. The effect of temperature upon the tonus of skeletal muscle, 296.

Erlanger, J. See Gasser and Erlanger, 613.

Ether, blood pressure and, effect of, on blood alkali, 264.

——, effect of, on pressor response to adrenalin, 254.

Exercise, static and dynamic, circulatory responses to, 636.

Eye, electrical response to illumination of, 600.

Fat soluble vitamins, 341.

Finney, W. H. See Cassidy, Dworkin and Finney, 413, 417.

Forbes, A. and J. M. D. Olmsted. The frequency of motor nerve impulses in the crossed extension reflex as shown by the alcohol block method, 17.

Foshay, L. Observations upon the action of insulin on the blood, with special reference to the cause of the condition known as hypoglycemia, 470.

Fridericia, L. S. and E. Holm. Experimental contribution to the study of the relation between night blindness and malnutrition, 63.

Gases of blood from arm and hand veins, 127.

—— —— peripheral blood, local temperature and, 146.

Gasser, H. S. and J. Erlanger. The nature of conduction of an impulse in the relatively refractory period, 613.

Gastric mucosa, elimination of dyes by, 304.

—— secretion, physiology of, 304.

Gemmill, C. L. See Snyder and Gemmill, 556.

Gerard, R. W. See Abel, Backus, Bourquin and Gerard, 287.

Goldschmidt, S. and A. B. Light. A comparison of the gaseous content of blood from veins of the forearm and the dorsal surface of the hand

as indicative of blood flow and metabolic differences in these parts, 127.

GOLDSCHMIDT, S. and A. B. LIGHT. A cyanosis, unrelated to oxygen unsaturation, produced by increased peripheral venous pressure, 173.

—— —— ——. The effect of local temperature upon the peripheral circulation and metabolism of tissues as revealed by the gaseous content of venous blood, 146.

Gonad-thyroid weight, reciprocal, in birds, 5.

GUTTMACHER, A. F. See WANG, RICHTER and GUTTMACHER, 581.

HAGGARD, H. W. See HENDERSON and HAGGARD, 193.

HAMILTON, W. F. and H. G. BARBOUR. Heat regulation and water exchange. VIII. The fate of the fluid leaving the blood in cold anhydremia, 321.

——. See BARBOUR and HAMILTON, 315, 665.

HARTLINE, H. K. The electrical response to illumination of the eye in intact animals, including the human subject; and in decerebrate preparations, 600.

Heat regulation and water exchange, 315, 321, 665.

Hemeralopia in rats on vitamin-A deficient diet, 79.

Hemolysis, mechanism of, 505.

——, so-called "reversed", 505.

HENDERSON, Y. and H. W. HAGGARD. The circulation and its measurement, 193.

HETTWER, J. P. and R. A. KRIZ. Absorption of undigested protein from the alimentary tract as determined by the direct anaphylaxis test, 539.

Hibernation, insulin and the mechanism of, 417.

HOELZEL, F. The relation between the secretory and motor activity in the fasting stomach (man), 463.

HOLM, E. Demonstration of hemeralopia in rats nourished on food devoid of fat-soluble A-vitamin, 79.

——. See FRIDERICIA and HOLM, 63.

INNERVATION, reciprocal, local mechanism for, 480.

Insulin, action of, on artificially cooled mammals, 413.

——, —— ——, on blood, 470.

——, —— —— ultraviolet light on, 530.

—— and the mechanism of hibernation, 417.

IVY, A. C. See DAWSON and IVY, 304.

JACOBSON, E. and A. J. CARLSON. The influence of relaxation upon the knee jerk, 324.

KNEE jerk, influence of relaxation on, 324.

KRIZ, R. A. See HETTWER and KRIZ, 539.

LANDIS, C. Changes in blood pressure during sleep as determined by the Erlanger method, 551.

LIGHT, A. B. See GOLDSCHMIDT and LIGHT, 127, 146, 173.

Light, ultraviolet, action of, on insulin, 530.

LUTZ, B. R. and M. A. CASE. The beginning of adrenal function in the embryo chick, 670.

—— and L. C. WYMAN. The effect of low blood pressure and ether anesthesia on blood alkali, 264.

——. See WYMAN and LUTZ, 254.

MACLEOD, G., E. E. CROFTS and F. G. BENEDICT. The basal metabolism of some Orientals, 449.

Malnutrition, night blindness and, relation between, 63.

Mammalian ventricle, response of, to surface stimuli, 346.

Metabolism, basal, of some Orientals, 449.

——, mineral, of sheep, 379.

MILES, W. R. See STONE and MILES, 571.

MILLER, F. R. and R. A. WAUD. Viscero-motor reflexes. IV, 329.

Mineral metabolism of sheep, 379.

MOORE, R. M. See WHITE and MOORE, 636.

Motor activity, secretory and, in fasting stomach, 463.
—— nerve impulses, frequency of, in crossed extension reflex, 17.
Muscle, skeletal, effect of temperature on tonus of, 296.

NEILL, A. J. See NICE and NEILL, 661.
NELSON, E. M. and H. STEENBOCK. Fat soluble vitamins. XXV. Further observations on the antirachitic action of irradiated animals on the non-irradiated when placed in the same cage, 341.
Nerve cells, effect of pressure on, 547.
—— conduction in relatively refractory period, 613.
—— impulses, motor, frequency of, in crossed extension reflex, 17.
—— stimulation, thermomyograms in response to, 556.
NEWTON, E. B. See ELLIS and NEWTON, 530.
NICE, L. B. and A. J. NEILL. The action of adrenalin on respiration, 661.
Night blindness and malnutrition, relation between, 63.

OLIVER, J. and L. BARNARD. The nature of the surface of the red blood cell and mechanisms of suspension stability, 401.
OLMSTED, J. M. D. See FORBES and OLMSTED, 17.
Orientals, basal metabolism of, 449.
Oxygen unsaturation, cyanosis unrelated to, 173.

PERMEABILITY, diffusion and, relation between, 85.
Pilocarpine, effect of, on blood lipase, 1.
Pressure, effect of, on nerve and interstitial cells, 547.
PREWITT, P. V. Effect of secretin and pilocarpine upon the blood lipase of dogs, 1.
Protein, undigested, absorption of, 539.
Proteins, radiated, studies on, 649.
Pseudo-cryptorchidism in an albino rat, 571.

RECIPROCAL innervation as possible local mechanism in the frog, 480.
Relaxation, influence of, on knee jerk, 324.
Reproduction in birds, 5.
Respiration, action of adrenalin on, 661.
RICHTER, C. P. See WANG, RICHTER and GUTTMACHER, 581.
RIDDLE, O. Studies on the physiology of reproduction in birds. XX. Reciprocal size changes of gonads and thyroids in relation to season and ovulation rate in pigeons, 5.

SCHROEDER, M. L. and G. N. STEWART. So-called "reversed" hemolysis with further observations on the mechanism of hemolysis, 505.
Secretin, effect of, on blood lipase, 1.
Secretory and motor activity in fasting stomach, 463.
Sleep, blood pressure changes during, 551.
SLONAKER, J. R. Analysis of daily activity of the albino rat, 485.
SMITH, A. H. See COWGILL, DEUEL and SMITH, 106.
SNYDER, C. D. and C. L. GEMMILL. Thermomyograms in response to nerve stimulation. I. The initial rise, as registered by Einthoven's galvanometer, 556.
STEENBOCK, H. See NELSON and STEENBOCK, 341.
STEIN, J. B. and J. TULGAN. Reciprocal innervation as a possible local mechanism in the frog, 480.
STEWART, G. N. See SCHROEDER and STEWART, 505.
Stomach, fasting, secretory and motor activity in, 463.
STONE, C. P. and W. R. MILES. Pseudo-cryptorchidism in an albino rat, 571.
Sugar in erythrocytes as index of insulin action, 470.
——, invert, relative sweetness of, 397.
Sugars, pure, relative sweetness of, 387.
Surface stimuli, response of mammalian ventricle to, 346.

TEMPERATURE, effect of, on tonus of skeletal muscle, 296.
——, local, and gases of peripheral blood, 146.
Thermomyograms in response to nerve stimulation, 556.
Thyroid activity, relation of tryptophan to, 275, 287.
——, gonad-, weight, reciprocal, in birds, 5.
Tryptophan, relation of, to thyroid activity, 275, 287.
TULGAN, J. See STEIN and TULGAN, 480.

VEINS, arm and hand, gases of blood from, 127.
Ventricle, mammalian, response of, to surface stimuli, 346.
Viscero-motor reflexes, 329.
Vitamin-A deficiency in diet, influence of, on visual purple, 63.
—— deficient diet, hemeralopia in rats on, 79.
Vitamin-B and appetite, quantitative relation between, 106.
Vitamins, physiology of, 106.

WAHLIN, C. S. See BIESTER, WOOD and WAHLIN, 387.
——. See WILLAMAN, WAHLIN and BIESTER, 397.
WANG, G. H., C. P. RICHTER and A. F. GUTTMACHER. Activity studies on male castrated rats with ovarian transplants correlated with the histology of the grafts, 581.
Water exchange, heat regulation and, 315, 321, 665.
——, passage of, through skin of frog, 85.
WAUD, R. A. See MILLER and WAUD, 329.
WHITE, H. L. and R. M. MOORE. Circulatory responses to static and dynamic exercise, 636.
WIGGERS, C. J. The muscular reactions of the mammalian ventricles to artificial surface stimuli, 346.
WILLAMAN, J. J., C. S. WAHLIN and A. BIESTER. Carbohydrate studies. II. The relative sweetness of invert sugar, 397.
WINTER, A. R. The utilization of minerals by ewes during the period of gestation, 379.
WOOD, M. W. See BIESTER, WOOD and WAHLIN, 387.
WYMAN, L. C. and B. R. LUTZ. The effect of ether on the pressor response to adrenalin in pithed cats, 254.
——. See LUTZ and WYMAN, 264.

THE AMERICAN JOURNAL OF PHYSIOLOGY

VOLUME LXXIII

BALTIMORE, MD.
1925

CONTENTS

No. 1. June, 1925

Effect of Secretin and Pilocarpine upon the Blood Lipase of Dogs. *Pro. V. Prewitt* 1

Studies on the Physiology of Reproduction in Birds. XX. Reciprocal Size Changes of Gonads and Thyroids in Relation to Season and Ovulation Rate in Pigeons. *Oscar Riddle* 5

The Frequency of Motor Nerve Impulses in the Crossed Extension Reflex as Shown by the Alcohol Block Method. *A. Forbes and J. M. D. Olmsted* 17

Experimental Contribution to the Study of the Relation Between Night Blindness and Malnutrition. Influence of Deficiency of Fat-Soluble A-Vitamin in the Diet on the Visual Purple in the Eyes of Rats. *L. S. Fridericia and Eiler Holm* 63

Demonstration of Hemeralopia in Rats Nourished on Food Devoid of Fat-Soluble-A-Vitamin. *Ejler Holm* 79

The Passage of Water Through the Skin of the Frog, and the Relation Between Diffusion and Permeability. *Edward F. Adolph* 85

Studies in the Physiology of Vitamins. III. Quantitative Aspects of the Relation Between Vitamin B and Appetite in the Dog. *George R. Cowgill, H. J. Deuel, Jr. and Arthur H. Smith* 106

A Comparison of the Gaseous Content of Blood from Veins of the Forearm and the Dorsal Surface of the Hand as Indicative of Blood Flow and Metabolic Differences in These Parts. *Samuel Goldschmidt and Arthur B. Light* 127

The Effect of Local Temperature upon the Peripheral Circulation and Metabolism of Tissues as Revealed by the Gaseous Content of Venous Blood. *Samuel Goldschmidt and Arthur B. Light* 146

A Cyanosis, Unrelated to Oxygen Unsaturation, Produced by Increased Peripheral Venous Pressure. *Samuel Goldschmidt and Arthur B. Light.* 173

The Circulation and its Measurement. *Yandell Henderson and Howard W. Haggard* 193

The Effect of Ether on the Pressor Response to Adrenalin in Pithed Cats. *Leland C. Wyman and Brenton R. Lutz* 254

The Effect of Low Blood Pressure and Ether Anesthesia on Blood Alkali. *Brenton R. Lutz and Leland C. Wyman* 264

No. 2. July, 1925

Relation of Tryptophan to Thyroid Activity in the White Rat. *Hsi-Chun Chang* 275

Tryptophan and Thyroid Function. *A. R. Abel, R. W. Backus, H. Bourquin and R. W. Gerard* 287

The Effect of Temperature upon the Tonus of Skeletal Muscle. *F. E. Emery* 296

Contributions to the Physiology of Gastric Secretion. VII. The Elimination of Dyes by the Gastric Mucosa. *A. B. Dawson and A. C. Ivy*..... 304
Heat Regulation and Water Exchange. VII. Evidence that Cold Anhydremia is Due to Loss of Fluid from the Blood Stream. *H. G. Barbour and W. F. Hamilton*..... 315
Heat Regulation and Water Exchange. VIII. The Fate of the Fluid Leaving the Blood in Cold Anhydremia. *W. F. Hamilton and H. G. Barbour*..... 321
The Influence of Relaxation Upon the Knee Jerk. *Edmund Jacobson and A. J. Carlson*..... 324
Viscero-Motor Reflexes. IV. *Frederick R. Miller and R. A. Waud*..... 329
Fat Soluble Vitamins. XXV. Further Observations on the Anti-Rachitic Action of Irradiated Animals on the Non-Irradiated when Placed in the Same Cage. *E. M. Nelson and H. Steenbock*..... 341
The Muscular Reactions of the Mammalian Ventricles to Artificial Surface Stimuli. *Carl J. Wiggers*..... 346
The Utilization of Minerals by Ewes During the Period of Gestation. *A. R. Winter*..... 379
Carbohydrate Studies. I. The Relative Sweetness of Pure Sugars. *Alice Biester, Mildred Weigley Wood and Cecile Stone Wahlin*..... 387
Carbohydrate Studies. II. The Relative Sweetness of Invert Sugar. *J. J. Willaman, Cecile Stone Wahlin and Alice Biester*..... 397
The Nature of the Surface of the Red Blood Cell and Mechanisms of Suspension Stability. *Jean Oliver and Leonard Barnard*..... 401
The Rate of Action of Insulin in Artificially Cooled Mammals. *G. J. Cassidy, S. Dworkin and W. H. Finney*..... 413
Insulin and the Mechanism of Hibernation. *G. J. Cassidy, S. Dworkin and W. H. Finney*..... 417
Some Physiological Effects of Hot-Air Baths. *Cornelia Golay Benedict, Francis G. Benedict and Eugene F. Du Bois*..... 429
The Basal Metabolism of Some Orientals. *Grace MacLeod, Elizabeth E. Crofts and Francis G. Benedict*..... 449
The Relation Between the Secretory and Motor Activity in the Fasting Stomach (Man). *Frederick Hoelzel*..... 463
Observations upon the Action of Insulin on the Blood, with Special Reference to the Cause of the Condition Known as Hypoglycemia. *Lee Foshay*..... 470
Reciprocal Innervation as a Possible Local Mechanism in the Frog. *John Bethune Stein and Joseph Tulgan*..... 480
Analysis of Daily Activity of the Albino Rat. *James Rollin Slonaker*.... 485

No. 3. August, 1925

So-Called "Reversed" Hemolysis with Further Observations on the Mechanism of Hemolysis. *Meta L. Schroeder and G. N. Stewart*..... 505
Changes in the Physiological Action of Insulin Induced by Exposures to Ultraviolet Light. *M. M. Ellis and E. B. Newton*..... 530
Absorption of Undigested Protein from the Alimentary Tract as Determined by the Direct Anaphylaxis Test. *J. P. Hettwer and R. A. Kriz*.. 539
The Endurance of Pressure by Nerve Cells and by Interstitial Cells. *Elbert C. Cole*..... 547

Changes in Blood Pressure During Sleep as Determined by the Erlanger Method. *Carney Landis* 551
Thermomyograms in Response to Nerve Stimulation. I. The Initial Rise, as Registered by Einthoven's Galvanometer. *C. D. Snyder and C. L. Gemmill* 556
Pseudo-Cryptorchidism in an Albino Rat. *Calvin P. Stone and Walter R. Miles* 571
Activity Studies on Male Castrated Rats with Ovarian Transplants, and Correlation of the Activity with the Histology of the Grafts. *Ging H. Wang, Curt P. Richter and Alan F. Guttmacher* 581
The Electrical Response to Illumination of the Eye in Intact Animals, including the Human Subject; and in Decerebrate Preparations. *H. Keffer Hartline* 600
The Nature of Conduction of an Impulse in the Relatively Refractory Period. *H. S. Gasser and Joseph Erlanger* 613
Circulatory Responses to Static and Dynamic Exercise. *H. L. White and R. M. Moore* 636
Studies on Radiated Proteins. Coagulation of Egg Albumin by Ultraviolet Light and Heat. *Janet Howell Clark* 649
The Action of Adrenalin on Respiration. *L. B. Nice and Alma J. Neill* 661
Heat Regulation and Water Exchange. IX. The Mechanism of Cold Anhydremia and Edema. *H. G. Barbour and W. F. Hamilton* 665
The Beginning of Adrenal Function in the Embryo Chick. *Brenton R. Lutz and Muriel A. Case* 670
Index 679
